

Mood Quiz Story:

As a registered user, I want to begin a mood survey so that I can get a playlist according to my current emotion.

Right:

The mood survey will pump out and I can submit the mood survey to get my current emotion

I can see my result of the previous mood survey

Error:

The mood survey does not pump out

Result of previous mood survey is not available

Wrong mood presented

Reference:

Accessing database of users

Revision: We separate this user story out of the mood playlist story. We also delete the user story of find and edit playlist user story, because we don't store the information of the playlists in the database.
